

Acalog – Otterbein University

Catalog.otterbein.acalog.com

www.digarc.com

- Relational database (same elements appear in many places but only have to be maintained in one place).
- Uses filters to display info: college/department/program-flexible and easy to update.
- They take your current catalog and set it up initially. Annual update to format included. Looks like your website.
- Export catalog to word or html. Export courses to excel or csv.
- Ability to add content – links, media, social media.
- Distributed management- owners of data update directly to be reviewed/approved before publication.
- Customer service is very responsive: 24/7, quick solutions, ongoing training available.
